Jessica McLaughlin
Analyst, Regulatory Affairs for Everris NA Inc.
Everris NA, Inc,
P.O. Box 3310
Dublin, OH 43016

Subject: Notification per PRN 98-10 – General label formatting, addition of optional company identifiers and brand names, updates to Warranty Statement and registrant name and address
Product Name: Ornamental Herbicide II
EPA Registration Number: 58185-178
Application Date: 08/19/2015
Decision Number: 508764

Dear Ms. McLaughlin:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, you may contact Lisa Pahel at 703-347-0459 or via email at pahel.lisa@epa.gov.

Sincerely,

A handwritten signature in cursive script, reading "Heather A. Garvie", is positioned above the typed name.

Heather A. Garvie, Product Manager 24
Fungicide Herbicide Branch (7505P)
Office of Pesticide Programs

NOTIFICATION

58185-178

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

09-04-2015

Ornamental Herbicide II

Provides [For] preemergence control of weeds in container and field grown
ornamentals.

- Excellent, broad spectrum weed control
- Even distribution of particles at the proper application rate
- Application to dry foliage only
- Application timing when plants are not breaking dormancy or making a flush of growth
- Application at least two (2) weeks prior to enclosure in greenhouse/shadehouse type structures and two (2) weeks prior to shipping plant material

Packaging

Unit Size:
50 lb bag

Stock #XXXXXX

(See next page for label information)

PRECAUTIONARY STATEMENTS

Hazards To Humans And Domestic Animals

CAUTION. Causes eye injury. Do not get in eyes, on skin, or on clothing.
Harmful if swallowed. Avoid inhalation.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are made of any waterproof material. If you want more options, follow the instructions for category A on an EPA chemical-resistant category selection chart.

Mixers, loaders, applicators, and other handlers must wear:

- coveralls over long-sleeved shirt and long pants
- chemical-resistant footwear plus socks
- chemical-resistant gloves
- chemical-resistant apron for mixers and loaders

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering Controls

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

User Safety Recommendations

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID	
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If swallowed	Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling poison control center or doctor, or going for treatment. You may also call 1-877-561-6584 <i>(insert company phone number on Final Printed Label)</i> for emergency medical assistance.	

Environmental Hazards

This pesticide is toxic to wildlife and aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Use with care when applying in areas adjacent to any body of water. Runoff from treated areas may be hazardous to organisms in neighboring areas. See Directions for Use for additional restrictions. Apply this product only as specified on the label. Do not contaminate water when disposing of wash water. In case of spills, either collect for use or dispose of properly.

Ornamental
Herbicide II

General Information

Ornamental Herbicide II is a pre-emergent herbicide for container and field grown ornamentals in nurseries and does not control established weeds. Ornamental Herbicide II combines two selective herbicides on one granule, giving the user a broad spectrum of weed control and ornamental plant tolerance. Ornamental Herbicide II is not registered for use on vegetable or edible fruit crops, turf, bedding plants or flowering crops except as described in the plant tolerance list. For season-long weed control, repeat herbicide applications are required at approximately 3-month intervals during the growing season.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 24 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls, chemical-resistant gloves made of any waterproof material, and shoes plus socks.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forest, nurseries or greenhouses.

Keep all persons, children and pets out of the treated areas until dusts have settled.

For use only on container, field grown, and landscape ornamentals. This herbicide product has been extensively researched; however, testing has not been conducted on all species or cultivars, or under all growing conditions. In some instances performance characteristics may vary.

RESISTANCE MANAGEMENT

Ornamental Herbicide II is both a Group 3 and a Group 14 herbicide. Any weed population may contain or develop plants naturally resistant to Group 3 and/or Group 14 herbicides. Weed species with acquired resistance to Group 3 and/or Group 14 herbicides may eventually dominate the weed population if Group 3 and/or Group 14 herbicides are used repeatedly in the same field or in successive years as the primary method of control for targeted species. This may result in partial or total loss of control of those species by Ornamental Herbicide II or other Group 3 and/or Group 14 herbicides.

To delay herbicide resistance consider:

- Avoiding the consecutive use of Ornamental Herbicide II, or other target site of action Group 3 or 14 herbicides that have a similar target site of action, on the same weed species.
- Using tank-mixtures or premixes with herbicides from different target site of action groups as long as the involved products are all registered for the same use, have different sites of action, and are both effective at the tank mix or prepack rate on the weed(s) of concern.
- Basing herbicide use on a comprehensive IPM program.
- Monitoring treated weed populations for loss of field efficacy.
- Contacting your local extension specialist, certified crop advisors, and/or manufacturer for herbicide resistance management and/or integrated weed management recommendations for specific crops and resistant weed biotypes
- Contacting The Scotts Company Everris at 800-492-8255 or www.scottsprohort.com ~~[www.scottspro.com]~~ **(insert company phone number and/or website on Final Printed Label)** for further information or to report suspected resistance.

The species listed below have been tested under actual growing conditions and found tolerant at the recommended application rate.

Gives preemergence control of the following weeds:

Grassy Weeds

Annual bluegrass	<i>(Poa annua)</i>
Barnyardgrass	<i>(Echinochloa crusgalli)</i>
Crabgrass	<i>(Digitaria sanguinalis)</i>
Sprangletop	<i>(Leptochloa uninervia)</i>

Broadleaved Weeds

Bittercress	<i>(Cardamine pensylvanica)</i>
Common Chickweed	<i>(Stellaria media)</i>
Cudweed	<i>(Gnaphalium obtusifolium)</i>
Dandelion	<i>(Taraxacum officinale)</i>
Eclipta	<i>(Eclipta prostrate)</i>
Fireweed	<i>(Epilobium angustifolium)</i>
Fleabane	<i>(Erigeron strigosus)</i>
Groundsel	<i>(Senecio vulgaris)</i>
Marestail	<i>(Gonyza canadensis)</i>
Oxalis	<i>(Oxalis stricta)</i>
Pearlwort	<i>(Sagina procumbens)</i>
Pepperweed	<i>(Lepidium virginicum)</i>
Pigweed	<i>(Amaranthus retroflexus)</i>
Shepherdspurse	<i>(Capsella bursa-pastoris)</i>
Sowthistle	<i>(Sonchus arvensis)</i>
Spurge, Garden	<i>(Euphorbia hirta)</i>
Spurge, Prostrate	<i>(Euphorbia supina)</i>
Spurge, Spotted	<i>(Euphorbia maculata)</i>

Application Recommendations

- Apply to dry foliage only
- Water in immediately to wash the particles off the plant foliage
- Apply 2.3 lbs. product per 1,000 sq. ft.
- Repeat application at 3-month intervals

Before each application, remove any existing weeds. Apply product with a properly calibrated rotary spreader that will assure accurate, even particle distribution. Product can also be applied by aerial equipment.

Apply to DRY FOLIAGE only. To test for moisture, rub hands over plant foliage. WATER IN with ½ - 1 inch immediately after application to wash the particles off the plant foliage and to activate the herbicide.

For season-long weed control, repeat applications are required at approximately 3-month intervals during the growing season.

The maximum application is 6 lbs/season at 2 lbs ai/acre/application.

Container Grown Ornamentals

POTTED LINERS-Remove established weeds from liners prior to transplanting into containers. Following planting and prior to chemical application irrigate with approximately ½ inch of water to firm potting media around root systems. After two regular waterings and foliage has dried, broadcast product evenly over the container growing area. Water in with ½ to 1 inch immediately after application.

BARE-ROOTED LINERS - Remove established weeds before herbicide application. Broadcast product evenly over the container growing area 3 to 4 weeks after potting. Water in with ½ to 1 inch immediately after application.

Individual Container Applications

For situations where broadcast application of the product is not appropriate, apply the product uniformly over the entire container surface at the rates in the following table (1 gm product/sq. ft.):

CONTAINER SIZE	SURFACE AREA (SQ FT)	GMS OF PRODUCT/ CONTAINER	VOLUME OF PRODUCT PER CONTAINER
1 gal (6" diam)	0.20	0.20	1/8 tsp
2 gal (9" diam)	0.44	0.44	¼ tsp
3 gal (10" diam)	0.55	0.55	¼ tsp*
5 gal (12" diam)	0.79	0.79	¼ tsp**
15 gal(17" diam)	1.60	1.60	½ tsp

*(rounded)

** (heaping)

FIELD GROWN ORNAMENTALS

Apply immediately after planting or prior to weed seed germination following complete weed removal. Before application the soil should be loosened by light cultivation.

Water the product in with ½ to 1 inch immediately after application.

PRECAUTIONS/LIMITATIONS

- Do not apply to moist foliage.
- Do not apply while plants are producing a new flush of spring growth. Tender, newly forming leaves are especially sensitive and may be injured by the herbicide.
- Do not apply when extreme cold stress (35°F or lower) is expected.
- Do not apply product in enclosed greenhouse or polyhouse structures as ornamental injury may result. Product should not be applied within two (2) weeks prior to enclosure in greenhouse type structure or within two (2) weeks prior to shipping.
- Do not apply to plant types whose leaves channel the herbicide granules to the leaf base (such as *Yucca spp.* and *Dracaena spp.*).
- Do not apply in wind conditions that affect distribution of the product.
- If metallic surfaces (nursery equipment, automobiles, etc.) are present at the application site, do not use this product under windy conditions (5-10 MPH) due to its staining potential.
- Not for use on vegetables. Do not use on fruit trees that will bear fruit within one year of application.
- Users who wish to use Ornamental Herbicide II on ornamental species or non-bearing fruit trees not listed on this label may determine suitability for such uses by making trial application of this product at a recommended rate to a small number of plants. Prior to using this product on a large number of plants, the trial treatment should be observed for signs of herbicidal injury for 3 to 6 months to determine if the treatment is safe to the target plant species.
- Non-bearing fruit trees such as citrus (oranges, grapefruit, etc.), pome fruits (apples, pears, etc.) and stone fruits (cherries, peaches, etc.) are plants which will not bear fruit for at least one year following application.
- The user assumes responsibility for any crop damage or other liability from the use of this product on ornamental plant species not recommended on this label.
- Not recommended for use on bedding plants, liner production beds, flowers, ground covers, vegetables, and turf.
- Do not incorporate product into soil or potting media nor apply product directly to bare roots.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available, or dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

OPTIONAL TEXT AND CLAIMS

- Provides/For preemergence control of weeds in container and field grown ornamentals.
- Excellent, broad spectrum weed control
- Even distribution of particles at the proper application rate
- Application to dry foliage only
- Application timing when plants are not breaking dormancy or making a flush of growth
- Application at least two (2) weeks prior to enclosure in greenhouse/shadehouse type structures and two (2) weeks prior to shipping plant material
- If you have questions regarding the use of this product, call TOLL FREE *(insert company phone number on Final Printed Label)*
- If you do not understand the label, find someone to explain it to you in detail.

WARRANTY/GUARANTEE INFORMATION

DISCLAIMER AND LIMITATION OF LIABILITY

IMPORTANT NOTICE FROM ~~THE SCOTTS COMPANY LLC AND SCOTTS SIERRA~~
~~HORTICULTURAL PRODUCTS COMPANY ("SCOTTS")~~; ~~EVERRIS NA INC. ("Everris")~~.
PLEASE READ BEFORE USE.

To the extent consistent with applicable law, user or buyer accepts the conditions, disclaimer of warranties and limitations of liability. Read the entire directions for use, conditions of warranties and limitations of liability before using this product. If terms are not acceptable, return the unopened product container at once for full refund.

CONDITIONS: The directions for use of this product are believed to be adequate and the user or buyer must always follow the label directions carefully and exercise judgment and caution when using this product under their growing conditions. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness, unsatisfactory or substandard results or other unintended consequences may result because of such factors as weather conditions, presence or absence of other materials, or the manner of use or application, all of which are beyond the control of ~~Scotts~~ Everris. All such risks shall be assumed by the user or buyer.

WARRANTY: This product corresponds to all claims and descriptions set forth on the label and is reasonably fit for the purposes set forth in the directions for use on the label when used in accordance with those directions. This warranty is subject to the conditions and limitations stated herein. ~~Scotts~~ Everris recognizes that the rights and remedies of the user or buyer are subject to the

provisions of the applicable law, but makes no other warranties or representations, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. No agent of **Scotts Everris** is authorized to make any warranties beyond those contained herein or to modify the warranties contained therein. Subject to the user's or buyer's rights and remedies under the applicable law, **Scotts Everris** disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY: Subject to the user's or buyer's rights and remedies under the applicable law, the exclusive remedy of the user or buyer and the liability of **Scotts Everris** or its affiliates, for any and all losses, injuries or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the purchase price paid by the user or Buyer for the quantity of this product involved or, at **Scotts Everris**' election, the replacement of the product. To the extent consistent with applicable law, **Scotts Everris** must have prompt notice of any claim so that a timely investigation of buyer's or user's claim can be made. Buyer and all users shall promptly notify **Scotts Everris** of any claims, whether based on contract, negligence, strict liability, other tort or otherwise or be barred from any remedy.
